

# Learning for sustainability in Europe: Building competences and supporting teachers and schools

All school curricula in Europe include sustainability, but not all competences are equally covered

Which subjects include sustainability competences most often?

# Learning for sustainability in Europe: Building competences and supporting teachers and schools

Whole-school approaches to sustainability are widely supported by education systems, but monitoring is rare

- 11** Monitoring how schools embed sustainability
- 26** Guidance and support for whole-school approaches
- 17** National sustainability school labels

Less than a third of education systems invest in small-scale school infrastructure for sustainability

## Financial support for

- 13** school gardens
- 11** bicycle facilities
- 12** recycling bins

## Learning for sustainability in Europe
